

# Visitor Tracking

## ■ Next-Generation Visitor Tracking Solutions

- ✓ Master Video's Real-Time Location System (RTLS) provides enhanced visibility to locate patients, staff and equipment for improved security and full control over who has access to specific areas of a building.
- ✓ We custom configure our automated RTLS Visitor Management Software to improve the experience between the patient and caregiver and provide asset tracking management when equipment needs to be in the right place at the right time.

## ■ Visitor Tracking Benefits

- ✓ Better First Impressions
- ✓ Better visitor experience
- ✓ Touchless digital check-in
- ✓ Enhanced Workplace Security
- ✓ Improved operations
- ✓ Centralized administration
- ✓ Security Compliance
