

Engineering & Design

[VIEW WEBPAGE](#)

■ Engineering & Design Solutions

- ✓ Master Video is a low-voltage systems integrator that provides Engineering and Design Services for totally integrated, single-source systems solutions, including; technical planning, site and field surveying, project development, and consultation.
- ✓ We take a client-focused approach, starting with assessment and workflow management, and develop a roadmap to support lifecycle management.

■ Single-Source Solutions

- ✓ Master Video is a multidisciplinary systems integration firm providing Engineering and Design services in three distinct areas;
 - IPTV / Digital Signage
 - Audio-Visual Systems
 - Electronic Security
